2. Matematica

Mi matematica d=1, tambien $\frac{1}{2}=\pi.$

$$\Phi = \frac{1}{2} \cdot \frac{\hbar + 2\pi}{\Gamma + c^2} \tag{1}$$

$$\Phi = \frac{1}{2} \cdot \frac{\hbar + 2\pi}{\Gamma + c^2} \tag{2}$$

$$= 0 \cdot 12312312312 \tag{3}$$

$$=\mathbf{T}_{RG}^{A}\tag{4}$$

Segun vimos en la ecuacion 1. \mathbf{T}_{BG}^A . La luz es rápida [Serway and Jewett, 2018]. La masa del pan es dura Kawai et al. [2006].
